## Real Life

### Exhibit and Production of “Who Am I?”

Your assignment is to create a PowerPoint presentation telling the class about yourself. This piece will be presented on the last class before February vacation. You will have only two class periods to scan photographs and to put your entire presentation together.

Please tell us who you are, ***your hobbies, family, friends, and goals***. The personality tests that we have completed are very important to this piece as well. I want you to tell us about what your personality traits are. The purpose is to give a visual of who you are, where you came from and where you are going in life. You can be as creative as you would like to be.

**I want to see:** Personality traits  
Occupations that match up with your personality traits  
(Holland's, Myer-Briggs, Keirsey)  
Location where you have been growing up  
Activities or interests you have in school  
Where your future lies: college, work, location, sports, etc.

PowerPoint must be colorful, have pictures and/or clipart, and list brief bulleted descriptions. There needs to be a minimum of 8 slides including a title slide and an ending slide. You will scan pictures using the scanners here in the computer lab. (Be sure to get your parents permission before bringing pictures in from home).

### Due Date for Presentation:

---
